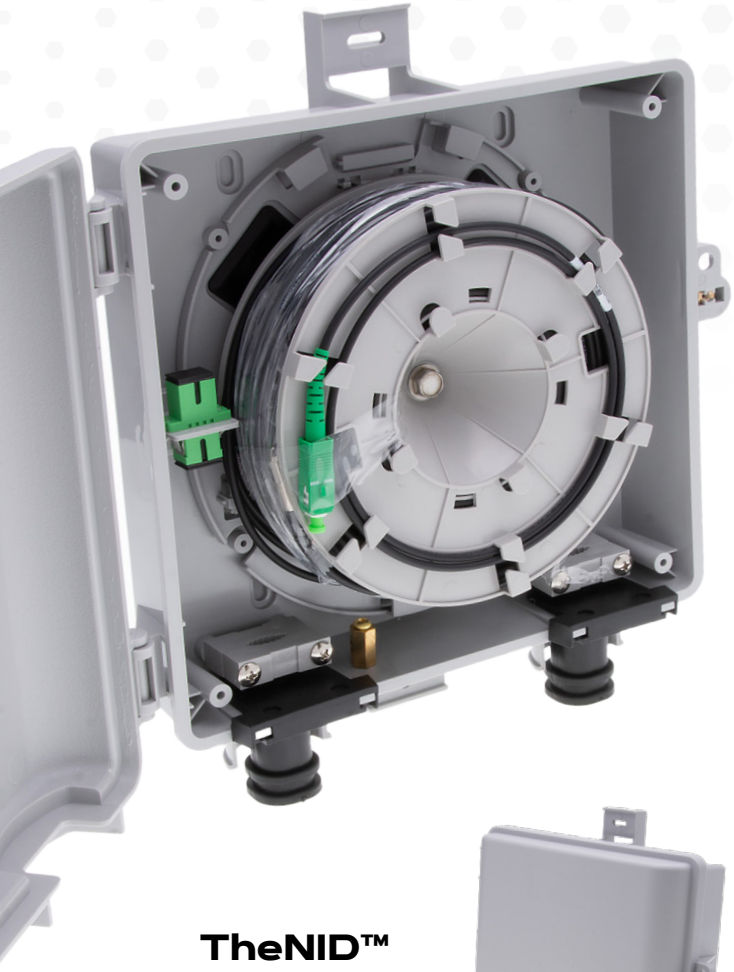
RAPIDLY DEPLOY FIBER WITH PRE-LOADED ENCLOSURES



Experience the ultimate in fiber connectivity with **TheNID™ with Reel**, featuring a preloaded rotating slack storage reel and versatile cable entry system. Eliminate in-field splicing, reduce installation time, and ensure reliable performance in any environment.

FEATURES

- **Preloaded Rotating Slack Storage Reel**: Comes with 50, 100, or 150 ft of micro armored pushable fiber, eliminating the need for in-field splicing.
- **Versatile Cable Entry System:** Accommodates both round and flat drop cables with a variable clamp entry.
- **High-Impact Thermoplastic Housing:** Durable construction for protection against environmental factors.
- **Secure Closure:** Closes with a 3/8” hex bolt and provision for a security seal.
- **Integrated Copper Ground Lug:** Provides a reliable grounding point for added safety.
- **Compliance and Environmental Rating:** GR-771 rated and RoHS compliant for safety and environmental protection.
